To whom it may concern

Investigation into the death of Peigi Hudson, your reference COR 2022 006610

Thank you for your correspondence of 5 August 2024 relating to the recommendation made by the Coroner directed to the Municipal Association of Victoria (MAV).

The MAV confirms its acceptance of the following recommendation:

That the Head, Transport for Victoria and the MAV consider coordinating with rural Shire and City Councils, particularly those with a large tree stock near rural roads, to conduct regular public information campaigns to highlight the importance of reporting by members of the public of dangerous trees (and other roadside hazards), and the avenues available for such reporting.

The MAV further confirms that this recommendation will be implemented. It is intended that the MAV will seek to coordinate with Transport for Victoria to consider public information campaigns. It is intended that this recommendation will be completed by the end of the first quarter of 2025.

Should you wish to receive any further information, please contact me [REDACTED]

Yours sincerely

Owen Harvey-Beavis
General Manager, Insurance
